

Premier Tax and Business Services Introduces Tax Coaching Service

Tax professional David Robson is pleased to announce he has added tax coaching to his firm's services. The new service gives clients a plain-English plan for beating the IRS – legally.

“Traditional tax ‘planning’ crunches numbers to illustrate ‘what-if’ scenarios based on future assumptions,” said Robson. “It gives clients dry numbers, in more detail than they need or want. But clients don’t want numbers. Clients want *savings*.”

“Our tax coaching service quizzes clients on their families and homes, jobs, businesses, and investments, then recommends specific strategies and concepts for saving tax,” Robson continued. “We package those recommendations in plain English, to deliver the savings they *really* want.”

Fees start at \$250 tax-deductible dollars. Coaching includes a personalized written report and ongoing maintenance for changing tax laws.

Premier Services is celebrating 20 years in business and is offering a 20% discount to new clients.

David Robson is the Owner and Founder of Premier Tax and Business Services, which has been serving the St. Louis and surrounding areas for 20 years. The firm offers tax preparation to individuals and small businesses as well as services to small businesses and entrepreneurs to save them time and money. Premier Services is located in the Centerco Office Suites building in Creve Coeur, MO.
